

Woggle making

Purpose

Using tubing and paracord make a memory woggle for the day

Method

1. Using plastic/ rubber tubing cut into 1 inch lengths prepared in advance
2. Paracord is fed through the tubing linking all together
3. Finish off with reef knot

Preparation in advance

1. 6 x 1in plastic/ rubber tubing (Qualpex) are required for each woggle
2. Paracord for each woggle

On the day

Distribute the items to each member with a diagram how to make

Risk assessment
